

Postdoctoral Fellow Position

**Dept of Surgery, Metabolism Unit and
UTMB Claude D. Pepper Older Americans Independence Center
University of Texas Medical Branch, Galveston**

A Postdoctoral Fellow position is immediately available for clinical research on nutritional interventions on lipid metabolism in elderly, funded by a new NIH grant. The successful candidate will be expected to carry out a long-term nutritional intervention in older subjects involving measurement of metabolic and molecular outcomes, perform sample and data analysis, present the results at scientific meetings and seminars, and write papers. Specific training in stable isotope methodologies will be provided during the fellowship.

Candidates should have experience in one or more of the following areas: nutrition, lipid metabolism, protein metabolism, stable isotope methodology, geriatrics.

Please, send curriculum vitae and a statement of research interests to:

Elisabet Borsheim, PhD
