Programme as a whole can be found here: <http://ecss-congress.eu/2015/15/index.php/programme/scientific-programme-at-a-glance>

More specific scientific programme will be available after 1st of April 2015, after the deadline of abstract submission.

Target Audience

Our congress is multidisciplinary and thus our target group contains sport and exercise as well as sport medicine scientists around the world. We are emphasizing the career development of young upcoming scientists and with this in mind we organize a [young investigators award](#) every year, which is very prestigious award in the field of sport science. More than 50 % of our congress participants are
